AGUINALDO'S NEW ROLE

Report Says He Has Assumed Dictatorship of the Filipinos.

ALSO DESCRIBES SITUATION.

Inhabitants of the Province of Morong Profess Friendship and Ask Protection — Request of Fugitives to Enter Manila Refused.

London, June 8.—Special dispatches from Manila say it is reported that Aguinaldo has dissolved the Filipino congress and has proclaimed himself dictator.

Washington, June 8.—The situation in the Philippines is described by General Otis in the following cablegram: "Result of movements in Morong province was to drive insurgents into mountains, capturing Antipoli and other towns in that section with a point of land projecting into the bay. They retreated and scattered before our advance, leaving 25 dead on the field; our loss, four killed and few wounded most slight. City of Morong, the only land route on the bay, was garrisoned and all other troops withdrawn."

"Inhabitants of provinces profess friendship and ask protection. Large numbers wish to enter Manila, but are refused as the city population is increasing too rapidly. Leading natives throughout the island, including those active insurgent leaders, seek permission to send families to Manila, as it is considered the only place of personal security."

Some Opinions.
Washington, June 8.—The conclusion drawn by war department officials of the condition of the Philippines from the dispatch from General Otis are that the insurgents are little more than marauding bands which will continually decrease when the men find that there is life and liberty under American government. These bands are regarded something like the bands of Indians 25 and 30 years ago, and the people who are coming into the American lines asking protection are considered like those who sought protection in the forts during the early stages of American development in the west.

Return of Volunteers.
Washington, June 8.—General Otis cables as follows regarding the return of volunteers: "Oregon request to defer time of departure until the 12th; will leave for Portland in transports Ohio and Newport. Sixth infantry upon arrival will relieve Californians at Negros. Hancock sails in a few days with Nebraska and other troops."

The Boston Leaves Manila.
Manila, June 8.—The United States cruiser Boston, Captain W. H. Whiting, has sailed for San Francisco by way of Nagasaki, Japan, with long service officers and men from the various American warships. The battleship Oregon will soon be stationed off Dagupan, in the gulf of Lingayen on blockade duty.

Turned Over Their Arms.
Havana, June 8.—Colonel Randall, in paying Cuban soldiers at Matanzas, found that the majority of them had turned over their arms some time ago to General Pedro Betancourt, the civil governor of Matanzas. A few of them had certificates, but the majority had not. Consequently Colonel Randall experienced difficulty and only paid 37 men, though over 300 were in waiting and wanting money.

Evans Criticized.
Wilkesbarre, Pa., June 8.—Commissioner of Pensions H. Clay Evans was severely criticized at the session of the state encampment of the Pennsylvania G. A. R. for his recent action in the matter of pensions. A resolution was submitted requesting the national encampment to investigate.

Subsistence of Army.
Washington, June 8.—Among the reports which accompanied the report of General Otis regarding operations about Manila are those relating to the subsistence of the army. It appears from these that the subsistence corps was prompt in every way in supplying the troops with food.

The Mazet Problem.
New York, June 8.—The Mazet committee devoted the forenoon sitting to inquiring into the workings of the water department. There was further examination of witnesses as to the utility of water meters and hydrants, but nothing of especial importance was elicited.

Gold For Europe.
New York, June 8.—The National City bank will ship \$1,000,000 to Europe on steamers sailing Saturday. The total amount shipped by this institution is \$3,500,000.

MONEY RECOVERED.

Deposited by Fred Friedenheimer in a Hotel Safe.

Cincinnati, O., June 8.—Fred F. Friedenheimer, of Louisville, Ky., who was arrested here charged with being implicated in the obtaining of \$3,000 from the German insurance bank, of Louisville, on Monday, by telephoning a request purporting to be from the cashier of another bank, for a loan of that amount, and saying he would send two men to get it, has made a confession to his stepfather and to Chief of Police Dietsch. It is said he implicates two other young men, but their names are withheld until arrests are made. The young man is willing to return to Louisville without waiting for a requisition.

The police recovered from the safe of the Grand hotel two packages of \$1,000 each that had been left there for safe keeping for Friedenheimer. There was nothing discovered to implicate any other person in the affair.

Officers Chosen.

Columbus, O., June 8.—Surgeon General Sternberg treated the subject of war sanitation before the American Medical association. Officers chosen were: President, Dr. W. W. Keene, Philadelphia, Pa.; secretary, Dr. G. H. Simmons, Chicago, Ill.; treasurer, Dr. H. G. Newman, Chicago, Ill.

New Incorporations.

Columbus, O., June 8.—The Old Orchard company, Cambridge, capital stock, \$50,000; the Wilmington Trunk company, Toledo, capital stock, \$20,000; the Latona Mutual Aid association of Cincinnati; the Kemmerer Glass company, Fostoria, capital stock, \$50,000.

Will Urge Its Passage.

Indianapolis, Ind., June 8.—The delegates to the postal clerks' convention put in most of the time in discussing the re-classification bill. The delegates say they have hard work to convince the congressmen that a readjustment of wages is necessary and this is what re-classification means. It was proposed that the clerks get up a synopsis of the work they have to do and show to congress the difficulties under which they labor. The convention by unanimous vote decided to urge the passage of the bill at the next congress.

Confirmed the Report.

London, June 8.—In the house of commons the secretary of state for the colonies, Joseph Chamberlain, replying to various questions on the subject, confirmed the reports of the failure of the Bloemfontein conference and also admitted the accuracy of the statements made in the dispatch from Matjes Fontein, explaining that the British commissioner informed President Kruger that Great Britain would not consent to the intervention of a foreign power in Anglo-Transvaal disputes.

To Attend Paris Conference.

London, June 8.—The attorney general, Sir Richard Webster, Sir Robert Threshie Reid, the former attorney general, and G. R. Askwith, of the British Venezuelan boundary commission, started for Paris. Others leave at the end of the week and the lord chief justice, Baron Russell, of Killowen, and Sir Richard Henn Collins, lord justice of appeal, will leave for the French capital shortly in order to be present at the opening of the Venezuelan boundary arbitration June 15.

Rev. Frick Re-elected.

Milwaukee, Wis., June 8.—The English Evangelical Lutheran Synod of the Northwest re-elected Rev. K. Frick, of this city, as president. President Frick delivered his annual address and spoke particularly on the work of the Northwestern synod. C. A. Smith, of Minneapolis, was elected treasurer and J. A. Leas, of Redwing, Miss., secretary.

Spaniards Killed.

Havana, June 8.—It is learned from towns in the country that Spaniards are suffering many cruelties, but make no complaint through fear of being killed. In Caimato three were killed a month ago, but no notice was given the authorities. On Sunday night four black Cuban soldiers showed where they killed the Spaniards, in a cave, boasting of the deed.

Spoiled by Rain.

Kansas City, Mo., June 8.—A drizzling rain almost thwarted the plans of the Modern Woodmen of America for holding a grand celebration. Mayor Jones had declared a holiday. The program provided for a grand parade.

Strike of Cannibals.

Chicago, June 8.—About 400 employees of Norton Brothers' tin can factory at Maywood struck because 23 men had been discharged. Manager Norton refused to see representatives of the Can Makers' union.

For Antarctic Expedition.

Berlin, June 8.—The budget committee of the reichstag voted the first installment of 200,000 marks for the German Antarctic expedition.

FLEECED BY SHARPERS

How Victims Were Corralled on Chicago Excursion Boats.

KLONDIKE MINER BUNCOED.

Investigating Committee of the Illinois Legislature Is Informed of Ways That Are Dark in the Great Western Metropolis.

Chicago, June 8.—The Baxter investigating committee took up confidence games on board local excursion steamers and the alleged thefts of slot machines by justice court constables.

Gus Chapin, a steamboat man, told of a Klondike miner who was fleeced out of \$1,800 by means of a shell game on an excursion boat running out of Chicago and also told of a Kansas City bank clerk who lost \$600 in the same manner on that boat. Chapin created somewhat of a sensation by swearing he had been promised \$10 to testify before the committee.

William Voss, a slot machine dealer, testified that he had sold several slot machines to saloonkeepers. The machines were confiscated by constables, who, however, returned them upon Voss's promises to pay them \$2 per week for protection.

Decision on Armor Plates.

Washington, June 8.—Secretary Long has passed upon the armor bids submitted recently, deciding to purchase a small quantity of armor and to let the next congress decide what shall be done toward securing the remainder needed for the armored ships already authorized. The armor companies having stated that they could not furnish Krupp armor of the high grade required by the department at the price fixed by the law, but that they could continue the supply of Harveyized armor at \$400 per ton, the secretary has ordered the purchase of some of the latter. The bureau chiefs have reported that this Harveyized armor would answer the requirements for the armor of four monitors to be built and also for the diagonal plates of the battleships Maine, Missouri and Ohio now under construction.

Bank Officials Responsible.

Chicago, June 8.—The United States court of appeals rendered a decision defining the liability of bank officers for the actions of dishonest employees. The ruling is of the National bank of Oshkosh from a judgment of \$15.02 given in favor of Mrs. Margaret Munger. Sums of her money amounting to about \$2,000 are said to have been taken from the bank by Frank Heilig, paying and receiving teller of the bank, and whom Mrs. Munger is said to have designated as her agent. The money was drawn without her authority and the court holds the bank officers guilty of negligence and affirmed the judgment of the lower court.

Kidnappers Taken to the Tombs.

New York, June 8.—The Barrows and Carrie Jones, the kidnappers, were arraigned before Justice Fursman. Before pleading Attorney Howe said that counsel for Mr. and Mrs. Barrow had had no notice of the arraignment of his clients and asked him (Howe) to have the pleadings deferred. Justice Fursman ordered a plea of not guilty to be entered in each case with leave to withdraw and demur. Bail in each case was fixed at \$10,000. Former Assistant Attorney Davis was assigned as counsel for Carrie Jones. The prisoners were then taken to the tombs.

Run Ashore.

Green's Farm, Conn., June 8.—The sound steamer C. H. Northam, of the New Haven Steamboat company's line, was run ashore here near New Creek to keep her from sinking. During the night the steamer is said to have been in collision with the steamer Richard Peck, of the same line, bound for New York. A hole of considerable proportions was stove in the Northam's bow and her passengers were taken aboard the Peck.

Brigandage Is Rampant.

Havana, June 8.—Manuel Yrebas, manager of the Cardenas-Juoca railroad, who arrived in Havana, says brigandage continues uninterrupted in Puerto Principe province and west in Santiago. He says the country around Puerto Padre, Nuevitas, Gibara and Holguin is completely at the mercy of bandits. Cattle have been stolen from the farms and other outrages have been committed.

Washington, June 8.—Gen. Brooke, at Havana, has reported to the war department that Private Charles Woodfin, company A, Fifteenth infantry, died June 4.

Nine Deaths From Heat.

New York, June 8.—Up to noon nine deaths from heat had been reported. The thermometer registered 81 above.

JIM CORBETT

Is Said to Be Placing His Money on Jeffries.

New York, June 8.—Despite the fact that Chief Devery has threatened to interfere in the Fitzsimmons-Jeffries fight, betting on the result of the battle continues to increase.

Fitzsimmons still rules a strong favorite over Jeffries. So confident are the lanky Australian admirers that they offer two to one freely on the result and in some instances two and a half to one has been secured.

Jim Corbett bet \$1,000 to \$2,000 on Jeffries. Richard Dougherty's offer of \$1,000 against \$550 on the champion was accepted by a well known banker. Jimmy Carroll has bet \$400 against \$750 on the Californian. He says he has a committee of \$4,000 to back Jeffries at 1 to 2. Sam Austin also has a few thousand to back Jeffries.

Nearly all arrangements for the Jeffries-Fitzsimmons fight have been completed and the pugilists will do little or no training between now and the time of the fight. Jeffries is still at Asbury park and no announcement has yet been made as to when he will leave for the scene of the fight.

Rapid Advance Deplored.

New York, June 8.—Discussing trade conditions, the Iron Age says: "The majority deprecate and deplore the rapid advance in prices, but all find it more prudent and immediately profitable to drift with the tide rather than waste their energies trying to stem it. The question may be properly raised, to what extent advances in price are justified when decreed by consolidations or associations of manufacturers. Two principal reasons are brought forward, one the advance of raw materials and the other the higher cost due to higher wages. Steel has sold in small lots at \$30 to \$31, Pittsburgh, but these figures have little real significance except to emphasize the scarcity."

To Keep Candies Pure.

Chicago, June 8.—The senators' pure food investigating committee closed its work in Chicago for the present, after hearing the testimony of several confectioners in regard to candy manufacturing. Charles Gunther, M. Shields, John Berry and a representative of Kehoe & company testified that a combination of reputable candy dealers had been formed several years ago for the purpose of preventing the use of adulterants in the manufacture of candies. Nearly every large dealer in the United States has joined the association which has been continually at work investigating the reports of adulteration.

Molineux's Bail.

New York, June 8.—Upon application of Attorney Battle Judge Newburger, in the court of general sessions, fixed the bail of Roland B. Molineux at \$5,000. Bail will be furnished. Assistant District Attorney Osborne was present and did not object to the amount of bail fixed. This bail was fixed in the only charge now actually pending against Molineux, namely, that of assault in the first degree for having, as alleged, sent cyanide of mercury through the mails to Harry S. Cornish.

To Get Drayfns.

Cayenne, French Guiana, June 8.—The dispatch boat Goeland will leave here at 2 p. m. for Devil's Island in order to take Dreyfus on board the Sfax, which will anchor off the island. The governor of Cayenne issued orders to the authorities of the Isle du Salut (Salvation Island) and to prepare the quantity of coal necessary for the voyage of the Sfax, whose hurried departure from the island of Martinique only allow her to take on board the stores she needed.

A Terrible Warning.

Vancouver, B. C., June 8.—Passengers by the Empress of Japan give a graphic description of the rebellion in Kow Loon. When the Empress passed up the coast from Hongkong the passengers saw the smoking ruins of many villages burned by Britishers as a warning to the rebellious Chinamen. Seventeen thousand natives were then in insurrection, and so serious did affairs shape themselves May 16 that the Hongkong volunteers were called to the front.

A Compromise Expected.

London, June 8.—It is learned that the United States ambassador, Mr. Joseph Choate, is hourly expecting the consent of the authorities at Washington to a compromise arrangement of the Alaskan question on the lines of a prospective settlement and for carrying on the discussion in the high matters, it is understood, Mr. Choate has been able to affect an agreement satisfactory to the United States.

Denver, Col., June 8.—The secretary of state issued certificates of incorporation to the American Grass Twine company, of New York, for the manufacture and sale of twine of all kinds; capital stock \$15,000,000.

BULLETS IN HIS HEAD.

Mysterious Shooting of Mr. Morris Foley In His Own Home.

WIFE AND STEPDAUGHTER

Accused by the Wounded Man of Doing the Bloody Deed Before He Passed Into Unconsciousness in Hospital.

New York, June 8.—Morris Foley, suffering from two bullet wounds and cuts in the head, accused his wife and her daughter, Hanna Poole, of attempting his murder and the two women are in custody at Sheepshead bay.

Foley says his wife held him, while his stepdaughter shot him. Foley is 56 years old and a mechanic. He has lived at Sheepshead Bay all his life and has acquired considerable property. His family consists of his wife, Ellen, 47 years old; a daughter, Hanna Poole, and two little girls. The younger children, according to the wife and elder daughter, were the cause of his injuries.

A disturbance in the Foley household attracted the attention of neighbors and police. When the officers inquired for Foley his wife and stepdaughter said they did not know where he was. The house was entered by the policemen, who found everything in a state of confusion. In nearly every room the furniture had been smashed. All the windows were broken.

On the floor the police found bloodstains which led down the stairs to the basement. There Foley was found, seemingly dead, lying in a dark corner, under the stationary washtubs. His face and clothing were covered with blood.

A closer examination showed there was a large bullet wound in his head from which blood was still flowing. Another bullet wound was found in the man's neck just under the right jaw. There was also three vicious looking cuts on Foley's head, which appeared to have been inflicted with a dull axe. The wounds had evidently been made some hours before. An ambulance was called and when it arrived the surgeon applied restoratives. Ten minutes elapsed before Foley showed signs of returning consciousness.

"Who shot and heat you?" asked the policeman.

"My wife, Ellen, and our daughter, Hannah," Foley replied. "My wife held me fast while my daughter fired at me with a revolver."

"Where did this happen?"

"Here in the house," Foley said. "They got mad because I beat the children."

Before he could say more the injured man lapsed into unconsciousness. He was taken to the hospital with no hope for his recovery.

The women both denied Foley's story. They said they had been shopping in Brooklyn and arrived home at 6 p. m. Foley was drunk and had broken nearly all the furniture in the house.

President's Itinerary.

Washington, June 8.—The itinerary of the president's New England trip is almost completed. He will leave here on Friday, June 16, for Holyoke, Mass., where he will be the guest on Saturday and Sunday of the Hon. William Whiting, who served with the president during his congressional career. On Monday the president will go to Northampton to attend the Ivy day exercises at Smith college and on Tuesday to South Hadley to attend the graduating exercises at Mount Holyoke seminary. His niece will be one of the graduates.

A Clue to Murderers.

Chicago, June 8.—Maps and charts of Switzerland, left in the house in which Martin Meier was found murdered, have, according to the police, furnished a clue which they hope will result in the arrest of the murderers of the aged Swiss. The police have received information that two men answering the description of the two who were seen at the Meier house Monday called on the old man about six months ago and with him examined maps of Switzerland. It is the theory of the police that the two were friends of Meier.

Disposal of Daly's Remains.

Paris, June 8.—It was announced that the remains of Mr. Augustin Daly would be taken to Havre on Friday morning and that they would be shipped to New York from there by way of Southampton.

INDICATIONS—Thunderstorms this afternoon, and probably Saturday; cooler in eastern portions; variable winds.

It is amusing to note the air of complacent cocksureness with which certain American journalists assume that the recent proceedings in the Dreyfus case decisively indicate the return of the great French nation to the paths of public virtue. Not only is Dreyfus assumed to be as innocent as a lamb, but his persecutors are vigorously denounced as a malignant and merciless pack of wolves. Who are some of these "wolves"? Is there an American jurist who has a higher reputation for ability, courage and patriotism than Quesnay de Beaurepaire, who displayed such boldness and skill in exposing the corruptions of the Panama affair? Before resigning his position in the Court of Cassation, he wrote—"I have seen in the Dreyfus affair the same tricks, the same yielding to pressure, as in the Panama affair, and the same cowardice yielding to selfishness." No soldier has a better standing for courage and character than General Mercier, who still believes that the original finding against Dreyfus should stand. Cavaignac Francois Coppee, the Comte de Mun, Deroulede, Brunetiere and Jules Lemaitre (representing different classes, schools and sects) stand firmly with Mercier and Quesnay de Beaurepaire. Though nothing but degenerate Frenchmen, not one of them could be induced to whitewash a tattooed man. How is it with our imperial selves as "kalsominers" of the corrupt?

ELEVEN STATES

Hold Elections on November 7th and Six Elect Governors.

[New York Tribune.]

There will be elections on November 7th in eleven States, six of which, Maryland, Ohio, Iowa, Massachusetts, Kentucky and Mississippi, will choose Governors and other State officers. Pennsylvania will elect a State Treasurer, a Superior Court Judge and two Supreme Court Justices.

In Nebraska Colonel Bryan will try to revive the silver issue in the campaign for a place on the Supreme Court bench.

New York will choose 150 Assemblymen, whose election will be important, owing to the proposed revision of the tax laws and the possible effect of the election on the National campaign of 1900.

New Jersey will again choose a Republican Legislature.

In Virginia and Mississippi the Legislative elections will be made interesting by the contests for seats in the United States Senate, and the voters are to express their preferences for Senators at the primaries.

Although the election for Governor of Alabama will not be held until August 7, 1900, the friends of General Wheeler have already begun an enthusiastic campaign for his election to that office.

TO REMOVE PROCTOR.

New Commissioner For Civil Service Will be Chosen Soon.

WASHINGTON, June 7.—Senators and Representatives who have conferred with the President respecting his recent civil service order make the prediction that Commissioner Proctor, the Democratic member, will not continue long as a member of the civil service commission.

It is said that the subject of a successor to Commissioner Proctor is already under discussion, and that a Southern man will be chosen.

It is understood that the President thinks that Mr. Proctor has been too free in his criticism of his recent order.

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from frightful death. In telling of it he says: "I was taken with typhoid fever that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise." This marvelous medicine is the surest and quickest cure in the world for all throat and lung trouble. Regular sizes 50 cents and \$1. Trial bottles free at J. J. Wood & Son's drug store every bottle guaranteed.

THE HIGH SCHOOL.

The Annual Commencement Last Evening Attracted a Very Large Crowd.

A Class of Sixteen Received Diplomas—State College Scholarships Awarded to Four of the Graduates.

The annual commencement of the Maysville High School attracted an audience that packed the opera house last evening.

The large attendance must have been most gratifying to the Board, the teachers and all other friends of our system of free schools, because it was an evidence of the lively and very marked interest the citizens of Maysville are taking in the cause of popular education. Maysville certainly is to be congratulated on the splendid showing made by her High School under the present faithful and efficient corps of teachers.

A class of sixteen, eight young ladies and eight young men, received diplomas last evening. Following is a list of the graduates:

Gertrude Russell Harding.
 Ethel Lee Viceroy.
 Allee Andrews Dobyus.
 Corinna Qusenberry Clinkinbeard.
 Elise Shackelord.
 Florence Roberts Dodson.
 Nellie Page Owens.
 Anna Bassett Daugherty.
 James Anthony Honau.
 Charles Duke Perrine.
 Newton Sudduth Calhoun.
 Warren Russell Oler.
 Waller Frederick Petry.
 Benjamin Thompson Warder.
 Frank Leo Devine.
 Edward Percy Lee.

The exercises opened with a very pretty march by thirty-six young ladies, all robed in white. During the progress of the march, the young ladies grouped themselves at the front of the stage and sang a very sweet chorus, at the close of which Rev. Dr. John Barbour stepped forward and invoked God's blessings upon the cause of education, upon our schools and upon the class started out this year into the activities of life.

At the conclusion of the march, the program as heretofore published was carried out. The pupils assigned places on the program won these honors by their deportment and class standing during the year just closed. The essays and orations showed thoughtful study and excellent preparation, the pupils acquitting themselves most creditably.

The diplomas were presented by Mr. Geo. T. Hunter, President of the Board. In his opening remarks he spoke briefly of the work of the schools the past year. The enrollment had been the largest in the history of the city, and the work of the faithful teachers most satisfactory.

After the delivery of the diplomas, Mr. Hunter stated that one member of the class had made a record for faithful attendance that had never been equalled in the history of the school, and one that would probably not be surpassed in years to come. Miss Anna Bassett Daugherty was the pupil who had made this record; in five years she had not been absent from school a single day. The Board had awarded her an elegant gold pin with diamond setting as a reward for her faithful attendance. Rev. F. W. Harrop stepped forward and with a few graceful remarks delivered the pin to Miss Daugherty.

As has been stated heretofore the State College has placed Maysville's High School on the accredited list, any graduate from this city being admitted to the State College without further examination. In addition four scholarships in the State College are each year awarded to the graduates attaining the highest general average, two to the male and two to the female department.

Miss Ethel Viceroy, Miss Gertrude Harding, Mr. Walter Petry and Mr. Percy Lee won these scholarships this year, and received their certificates from Mr. Hunter, entitling them to the full course of study at the State College free of tuition. Miss Viceroy's average was 95 1-5, Miss Harding's 93 3/4, and Mr. Petry's and Mr. Lee's each 93 and a fraction.

The music by the Maysville Orchestra and by Miss Flinn, with Miss Berry as accompanist, added to the enjoyment of the evening. Miss Flinn saved her best for the last, her closing number "A Summer Night" being very sweetly rendered.

BALLENGER, jeweler and optician.

JUDGE A. J. AUXIER, of Pike County, has announced as a candidate for the nomination for Judge of the Court of Appeals, to succeed Judge James H. Hazelrigg. Judge Auxier was United States Marshal for Kentucky during Arthur's administration, and was the Republican nominee for Congress in the Eleventh district in 1888. Judge Ed. C. Orear, of Mt. Sterling, is also an announced candidate, and it is probable that it will be a three-cornered race, as the Hon. David G. Colson's friends are booming him for the place.

BLUE FIELDS (W. Va.) Telegram: "Rev. F. M. Tinder, who has been holding a three week's meeting at the Christian Church, left for his home at Carlisle, Ky. He is an able and instructive minister of the Gospel and has greatly revived the church here. There were thirty-six confessions and many others who were strengthened in the faith to live more consistent lives. This was, doubtless, in every way the most successful meeting in the history of the church. The people of Bluefields will have many pleasant memories of Mr. Tinder and a large host of friends and acquaintances, which he made while here, join in wishing him much success in his field of usefulness."

THE TURNPIKE CASE.

Arguments Stopped This Morning and Negotiations in Progress For Settlement.

The Lexington turnpike case occupied the attention of the Circuit Court yesterday, the point at issue being the injunction asked for by Col. Baldwin and his Board of Directors to prevent the new board and officers from entering on their duties.

This involved the legality of the recent election, and affidavits were presented and read by each faction in support of its claims. The general impression was that the new board made out a very strong case.

Hon. E. L. Worthington then argued the case for the new board, and it was announced that Messrs. Robertson and Cochran would be heard for the old board this morning and Hon. C. J. Bronston for the new board.

This morning, however, a delay was asked for by the parties and negotiations are in progress looking to a full settlement of the suit.

Col. Baldwin has purchased all the Lexington stock in the road.

PECULIAR ACCIDENT.

Mr. John R. Brodt, of Taylor's Mill, Injures One of His Knees in a Singular Manner.

Mr. John R. Brodt, of Taylor's Mill, met with a very singular but very painful accident Tuesday afternoon.

He picked up an old clapboard and started to break it across one of his knees, not noticing that it contained an old rusty nail. This nail was forced in under the knee cap, allowing the fluid about the knee joint to escape. The wound was so painful that he fell before he could reach the house.

It was feared Wednesday that lockjaw would set in, but he was resting better yesterday.

Treason From Abraham Lincoln.

[St. Louis Post-Dispatch.]

This extract from one of Abraham Lincoln's speeches sounds treasonable now, but it shone with the light of truth and right when the words were uttered: "When the white man governs himself, that is self-government; but when he governs himself and also governs another man, that is more than self government—that is despotism." Lincoln's speeches ought to be censored. Perhaps they should be suppressed altogether.

CURE FOR CONSUMPTION.

A Paris Chemist Treats the Dread Disease With Formaldehyde Vapour.

COLUMBUS, June 7.—At to-day's session of the American Medical Association a sensational report was presented on the cure of consumption by Francisque Crotte, a chemist of Paris, France.

Crotte has cured more than 1,000 cases of hopeless consumption and in support of his statement he offered to treat and cure gratis 500 consumptives from different States in the Union.

The treatment is very scientific and consists of a formaldehyde vapour, transported directly through the tissues by aid of a light tension of static electricity. He is establishing a sanitarium at Pekin, Ill., and clinics at New York, Chicago and Los Angeles. A number of eminent physicians are of the opinion that an absolute cure for tuberculosis has at last been found.

THE TIGER TOBACCO TRANSPLANTER.

Makes the farmer absolutely independent of the weather. He sets his plants when he gets his ground ready, rain or shine. The superiority of the Tiger over all other Transplanters has been plainly demonstrated during seasons of severe drouth, when experiment proved it to be the only machine that could be depended upon to give a good stand of plants under any and all weather conditions. With the TIGER the plants are properly set. The roots are in the puddle formed by the water, loose earth being forced down around and above the plant. In effect the water valve on the TIGER stands still at each hill long enough to pour the water precisely where it is wanted—a feature that cannot be duplicated by any machine devised by man. THE TIGER PUTS THE WATER JUST WHERE IT IS NEEDED—AT THE ROOTS. There are many superior points on the TIGER that makes it far ahead of any other Transplanter ever put on the market. We ask your inspection of same and that you place your order at once, as the factory could not supply the demand last season and we, ourselves, were only able to get a portion of our orders filled. So do not delay, but place your order with us at once, that we may be able to supply you before our stock is exhausted. Remember first come first served.

River News.

The Levana mills have two years work in sight.

The new towboat Winifred, just off the Excel Docks at Middleport, is at Point Pleasant receiving her machinery. The new boat is 120 feet long, 22 feet wide and 3½ feet in depth of hold. She is owned by the Big Kanawha Towboat Company, and will be completed by July 10th.

A decision, which is of great interest to boatowners generally, has recently been rendered, holding that in case of an accident on a steamboat, the company owning her is only liable for damages to the extent of the value of that particular boat, thus not endangering the capital stock and protecting other boats of the line from attachment. "This means," says the Waterways Journal, "that, should a boat belonging to an organized company blow up, sink or burn, killing or injuring one or more persons or members of the crew, said company cannot be sued for more than the appraised value of the wreck of that particular boat. Should the boat be a total loss, no judgment for damages can be collected. It is a surprising decision, but a fact, nevertheless."

A BEAUTIFUL LIFE.

A Touching Tribute to the Late Mrs. Anna Coons Blaine.

(The Herald and Presbyter.)

Mrs. Anna Coons Blaine, widow of Samuel Lyon Blaine, late of Maysville, Ky., died at the residence of her daughter, Mrs. James L. Botsford, Youngstown, O., on Tuesday, May 9, 1899, in the eighty-first year of her age.

Anna Coons was the daughter of George Coons, and was born in Fayette County, near Lexington, Ky., March 10, 1819.

She was married March 11, 1840, to Samuel Lyon Blaine, and was laid by his side in Maysville's beautiful cemetery May 11th.

Two of her brothers, Rev. John F. Coons and Rev. George W. Coons, were eminent Presbyterian ministers, and both were greatly loved in Cincinnati and vicinity, where much of their lives was spent.

In early life she united with the Presbyterian Church in Lexington, Ky., and from that day took an active and leading part in church and Sunday school work, devoting herself, so far as family duties would permit, to the service of Him to whom she had consecrated her life.

Of fine presence, richly endowed by nature in mind and body, and untiring in her pursuit of knowledge, she developed a full, round and complete character, with positive convictions, and with a gentle, sweet and generous disposition, that surrounded her with a host of friends and admirers, among whom were numbered even the humblest in the community to whose appeals her heart was always open.

To her family and friends her memory always remained fresh and fragrant, as of one whose life was without reproach and whose energies were devoted to accomplish all the good possible.

Rev. S. B. Alderson, for many years her pastor, and who, assisted by Rev. John Harbison, conducted her funeral services, says of her:

"Her life was spent largely in Maysville, Ky., where she was best known and most lovingly remembered. It was there that she reared a large family of children, and gave her most useful service to the Presbyterian Church. The seeds of her industry as a worker and a teacher are now bearing fruit in the young people whom she was instrumental in training. In her conversation, in her home, in her entire social relations, she seemed always to remember that she belonged to the Lord, and in some way strove to serve him. Her intelligence, which was admired, displayed its force principally in her knowledge of the word of God and her ability to teach the word unto others. Her natural affection, sweetened and elevated by the cross, drew many around her whom she continually influenced for good. Her cheerful and gifted conversation threw light upon many a pathway, and remove many a prejudice that lay nestling in the heart of the unbeliever. Every memory of her now associates her with some blessed service. As a mother, she had few equals, bequeathing to her children a splendid inheritance of brain and heart and body. As a friend she was staunch and true and untiring. As a Christian no one could speak evil of her. The following lines tell the story of her long and useful life:

"I know not the way I am going,
But well do I know my guide;
With childlike trust I give my hand
To the mighty friend at my side."

When a boy turns his bulging pocket inside out he marvels at the quantity and variety of articles he has stowed away. Odd lengths of string, marbles, a horse-chestnut, a top, brass nails, hickory-nuts, an apple, and many more articles are garnered by this "snapper up of unconsidered trifles." We think the collection must be hard on a boy's pocket, and it is. But do we ever think of the variety and miscellany of the substances we put into the pocket of our stomach? There's the apple and the nuts, and things besides quite as indigestible as brass nails and with no more food value than so many marbles. And yet we wonder that the stomach "gives out." When the stomach breaks down under the strain of careless eating and irregular meals it can be perfectly and permanently restored to health by the use of Doctor Pierce's Golden Medical Discovery. The action of this medicine on the stomach and other organs of digestion and nutrition is so marked that relief from disease is at once experienced, and the headaches, liver "troubles," kidney disorders, skin eruptions and other symptoms of a diseased stomach are quickly cured. Whenever the use of a laxative medicine is indicated, use Dr. Pierce's Pleasant Pellets. They act in harmony with the "Discovery" and assist its action by purging the bowels of foul accumulations.

FARM FOR SALE.

Having decided to sell my farm, I offer at private sale one of the best farms and prettiest homes in Central Kentucky. Said farm is on the Jacktown turnpike, four miles from Paris, four miles of Millersburg, and within one mile of three stations on the Maysville railroad. It contains 320 acres, 150 acres of grass, and in a high state of cultivation. The dwelling is a two-story brick with ten rooms, and is one of the best built houses in Kentucky. There are two barns, two cabins, work shop, granary, buggy house, coal and wood houses, and every building needed on a well regulated farm. Plenty of fruit of all kinds and never failing water. This farm will have to be seen to be appreciated. Terms easy. Call on or address Bishop Hibler. 19d1mw2
